quantity of one or more Priority Chemicals currently found in our reduction, recycling, or other materials management practices. In	this enrollment application, we identify one or more voluntary goals
that we believe we can achieve as partners in this program. The vechange over time. We may revise our goal(s) or withdraw from the withdraw from the program, we will notify EPA.	he program at any time. If/when we choose to revise our goals or
GOAL #1. Chemical Name: Mercury	CASRN: _7439-97-6
Narrative description of proposed project:	
We are taking the NPEP Mercury Challenge. We will reduce o	ur mercury inventory by recovering mercury-containing instruments
and supplying users with mercury-free products.	
How we will measure success: We will measure success by determining the amount of mercur material.	y that would have been used had we not substituted for a less toxic
1a. Our voluntary source reduction goal for Chemical #1 is to re amount of5 pounds inFebruary, 2007 (mon generated/used by November, 2007 (n	th/year) to a reduced amount of 2.5 pounds
1b. To accomplish this goal, we will use the following source red Equipment or technology modifications. Reformulation or redesign of products. Improvements in inventory control.	uction options (check all that apply): Process or procedure modifications. Substitution of less toxic raw materials. Improvements in maintenance/housekeeping practices.
2a. In addition to, or in lieu of using source reduction methods, or increase the recycled or recovered quantity of this chemical from (month/year) to an increased quantity of pounds by	a baseline amount ofpounds in
2b. To accomplish this recycling or recovery goal, we will use the Direct use/reuse in a process to make a product Processing the waste to recover or regenerate a usable Using/reusing waste as a substitute for a commercial	e product.
3. We have a Quality Assurance/Quality Control Plan for data (c	heck which applies). X Yes No
Please use supplemental sheets for additional goals.	Page <u>1</u> of <u>1</u>
